Product Details

The Data Signs type C size VSLS incorporates a full matrix LED display capable of displaying alpha numeric and text data, allowing speed sizes and short safety instructions to be displayed, and multiple rings LED annulus programmable to flash inner rings.

Our VSLS is ideal for areas requiring enforceable temporary speed limits, and is effective in reducing motorists' speed approaching roadworks and temporary speed restricted areas.

The Data Signs VSLS is programmable via our DS-Live™ online platform or on site via the onboard VSLS Computer. Scheduled speed changes can be programmed via the DS-Live platform.

Features include quick one-person setup, retractable towbar for smaller footprint and security, extendable outriggers for greater stability, forklift pockets for truck transport, full electric mast with hand brake, hot dipped galvanised chassis, industrial paint finish and powder coating, disc brakes and hand brake.

STREAMS interface option and RADAR detection and recording options are available.

BUILT TO AUSTRALIAN STANDARD *AS5156-2010*
