

ELECTRONIC SPEED AWARENESS SIGN

Traffic calming combined with radar data logging

KEY PRODUCT CHARACTERISTICS

Actively influence driver behaviour and speed compliance at critical traffic sites to fulfil regulatory and legal requirements around Chain of Responsibility

Radar enabled sign to create speed awareness

- Slow down traffic using several display options
- Compare driving behaviour for different traffic plans, time slots and display options

Data logging of vehicle count and respective speed to assess and compare different traffic management plan scenarios and related speeding behaviour

Actively support “prepare to stop” situations ahead of portable traffic lights, such as eSTOP

Several eSAS deployed in a row to assess driver behaviour with and without messaging and/or actual speed display

SPECIFICATIONS

WEIGHT	approx. 21kg
DISPLAY SIZE	320 x 320mm
MAX WORKING HEIGHT	approx. 2.2m
MIN WORKING HEIGHT	approx. 1.9m
LED COLOUR	Red/Green
SPEED	10 - 150kph
RADAR RANGE	150m
VISIBILITY (MIN)	100m
WORKING TEMP.	-20-70°C
